

2023년 6월 지방직 대비 주간별 연습과제	[5월 3주차]국회직 8급 변형(과제)	이름 : 날짜 :
-----------------------------	-----------------------	--------------

자료소개

<주간별 학습과제>

- 본 자료는 영어 노출을 늘리고자 하는 수험생을 위해 준비되었습니다.
- 본 자료는 어디까지나 보조자료이며, 수험공부의 주된 자료로 사용되기에는 적합하지 못합니다.
- (1)비빈출영역을 훑고 싶은 사람, (2)고난도 구문/어법을 접하고 싶은 사람, (3)현재 가진 자료만으로는 공부가 부족하다고 느끼는 사람에게 권합니다.
- 항상 답지[해설지]가 제공되지는 않으며, Zoom 실시간 해설 및 유튜브 영상을 통해 해설이 제공될 수 있습니다.

<본과제>

- 본 과제는 2023년 국회직 8급 어법문제의 문장을 가지고 구성되었습니다.
- ‘어법선지가 포함된 문장’과 ‘어법선지가 포함되지는 않았으나 공부합직한 문장’으로 구성되었습니다.
- 평소 과제는 고급영문독해를 목표로 했다면, 이번 주차의 과제는 국회직 수준의 어법문제를 해결하는 데에 초점이 맞춰져 있습니다.

해설자료 및 영상 업로드

목차

1. 문제보기(과제자료, 해설자료)
2. 구문과제(과제자료, 해설자료)
3. 구문별 해설(해설자료)

문제보기 (※정답은 페이지 하단에)

3. Which of the following is NOT grammatically correct?¹⁾

We should think of Cultural Intelligence as being something ①that we can continuously improve and ②develop over the duration of our lives. The difficulty is in acquiring it. We do this ③through our experiences, but also with knowledge ④impart by other people whom we trust—and who trust us ⑤enough to give us their knowledge.

12. Which of the following is NOT grammatically correct?²⁾

The Titanic was the most magnificent ship. It had luxuries and all comforts. It had electric light and heat, electric elevators, a swimming pool, a Turkish bath, libraries, etc. Most of the passengers were emigrants ①who were coming to America with hopes of a better life. The Titanic began to cross the Atlantic ocean on April 10. Nobody on the ship realized how much danger the ship was in. On April 14, at 11:40 p.m., an iceberg ②was spotted straight ahead. The captain tried to reverse the direction of his ship, but he couldn't because the Titanic was traveling too fast and it was too big. It hit the iceberg and started to sink. The Titanic originally had had 32 lifeboats, but 12 of them ③had been removed to make the ship look better. While the ship was sinking, rich people ④had put on the lifeboats. By the time the third-class were allowed to come up from their cabins, most of the lifeboats ⑤had already left.

16. Which of the following is NOT grammatically correct?³⁾

Marine debris which is known to cause entanglement ①includes derelict fishing gear such as nets and mono-filament line and also six-pack rings and fishing bait box strapping bands. This debris can cause death by drowning, suffocation, strangulation, starvation through reduced ②feeding efficiency, and injuries. Particularly affected ③is seals and sea lions, probably due to their very inquisitive nature of investigating objects in their environment. Entanglement rates in these animals of up to 7.9% of a population ④have been recorded. Furthermore, in some instances entanglement is a threat to the recovery of already ⑤reduced population sizes. An estimated 58% of seal and sea lion species are known to have been affected by entanglement including the Hawaiian monk seal, Australian sea lions, New Zealand fur seals and species in the Southern Ocean

- 1) 4번
- 2) 4번
- 3) 3번

구문과제(국회직 8급 어법문제)

1. We should think of Cultural Intelligence as being something ①that we can continuously improve and ②develop over the duration of our lives.
2. The difficulty is in acquiring it. We do this ③through our experiences, but also with knowledge ④imparted by other people whom we trust—and who trust us ⑤enough to give us their knowledge.
3. Most of the passengers were emigrants ①who were coming to America with hopes of a better life.
4. Most of the passengers were emigrants ①who were coming to America with hopes of a better life.
5. Nobody on the ship realized how much danger the ship was in.
6. On April 14, at 11:40 p.m., an iceberg ②was spotted straight ahead.
7. The captain tried to reverse the direction of his ship, but he couldn't because the Titanic was traveling too fast and it was too big.
8. The Titanic originally had had 32 lifeboats, but 12 of them ③had been removed to make the ship look better.
9. While the ship was sinking, rich people ④had been put on the lifeboats.
10. By the time the third-class were allowed to come up from their cabins, most of the lifeboats ⑤had already left.

11. Marine debris which is known to cause entanglement ①includes derelict fishing gear.
12. This debris can cause death by drowning, suffocation, strangulation, starvation through reduced ②feeding efficiency, and injuries.
13. Particularly affected ③are seals and sea lions, probably due to their very inquisitive nature of investigating objects in their environment.
14. Entanglement rates in these animals of up to 7.9% of a population ④have been recorded.
15. Furthermore, in some instances entanglement is a threat to the recovery of already ⑤reduced population sizes.
16. An estimated 58% of seal and sea lion species are known to have been affected by entanglement.
