113. 글의 주제로 옳은 것은?

It is easy to study the amounts and kinds of food that people consume. The United States Department of Agriculture and the food industry—growers, processors, marketers, and restaurateurs—compile sales statistics and keep accurate records. This information not only tells us what people are eating, but also tells us about the changes in attitudes and tastes. Red meat, which used to be the most popular choice for dinner, is no longer an American favorite. Instead, chicken, turkey, and fish have become more popular. Sales of these foods have greatly increased in recent years. This is probably a result of the awareness of the dangers of eating food that contains high levels of cholesterol or animal fat. Doctors believe that cholesterol is a threat to human health.

- ① how to avoid dangerous food
- ② new ways to improve human health
- ③ the food industry in the United States
- ④ the relationship between food and health
- ⑤ new eating habits in the United States

114. 글의 제목으로 옳은 것은?

Cultural differences in matters of turn-taking in conversation can sometimes lead to conversational breakdown and misinterpretation of intentions. However, in recent studies of many languages, researchers have found empirical evidence for robust universals in human conversation. They found that people take turns in natural conversation in the same basic way in all languages, guided by two main rules: avoid speaking at the same time and avoid silence between turns.

- ① Recent Studies in Anthropology
- ② Cultural Differences in Turn-taking
- ③ Conversation as a Human Behavior
- ④ Universals in Turn-taking in Conversation
- ⑤ Strategies for Effective Conversation

115. 빈 칸에 들어갈 표현으로 옳은 것은?

Whether we have freckles, blonde hair, or a certain type of personality can be influenced by genetic factors, but none of these characteristics is bestowed on us at conception any more directly than our ultimate height is. We must make a distinction, then, between what is supplied as our genetic makeup and the kinds of individuals we eventually become. That difference serves as the basis for distinguishing between genotype, a person's constant, inherited genetic endowment, and phenotype, an individual's observable, measurable features, characteristics, and behaviors. A given phenotype is the product of complex interactions involving the genotype and the many events that comprise _____.

- ① appearance changes
- ② beneficial influences
- ③ our view of the world
- ④ an individual's experience
- ⑤ our inherited characteristics

116. 글의 주제로 옳은 것은?

Although you shouldn't rely too heavily on body language alone, there is no denying that it can provide valuable information. For example, if you have a hunch that someone's lying to you, you can try to force the person to tell you the truth, find evidence such as a paper trail, or perhaps confirm your suspicions with information from a third party. But unless you know the physical tip-offs to dishonesty, you may never think to question someone's truthfulness in the first place. Most people are very uncomfortable lying, so it's not too difficult to spot a lie if you know what to look for. You might not be able to prove your conclusions in a court of law—but then again, you probably won't need to. Once a person's body language has signaled to you that he might be lying, you can confirm your hunch through these other sources if the situation warrants it.

- ① origins of body language
- ② historical facts of body language
- ③ information provided by body language
- ④ universal features of body language
- ⑤ body language in a court of law

117. 다음 글에서 사막화(desertification)의 결과로 언급되지 않은 것은?

As populations grow and consumption increases, desertification is a major problem that, in some cases, is made worse by attempts at improving land management. The problems of encroaching deserts are many: People lose land, drought situations increase, sustainable economic activity begins to fail, and not only do rivers dry up but the water quality worsens. Such situations radically change the local ecosystem, impacting on the biodiversity of the land and possibly the carrying capacity.

- ① attempts to improve land management
- ② increased drought situations
- ③ dried-up rivers
- ④ poor quality of water
- ⑤ changes in the local ecosystem

118. 빈 칸에 들어갈 표현으로 옳은 것은?

Although French, Dutch, Spanish, and English coins were exchanged for goods and services, people in Colonial days got along without much use of money. By bartering, they could exchange a commodity for an article. _____, by making a deal or a swap, a person could obtain the thing he wanted. Book credit was also used to a great extent. By bringing his eggs, produce, or meat to the general store, a person could receive credit from the storekeeper and then buy clothing or implements up to the amount of his credit.

- ① In other words
- ② As a result
- ③ By contrast
- ④ In the meantime
- ⑤ For example

119. 글의 내용과 일치하는 것은?

The brain is active in all sleep stages. However, dreams differ from other mental activities in sleep because they are usually story-like. They may be as short as a few seconds or last for many minutes. Dreams may be organized or chaotic, realistic or fantastic, boring or exciting. Sometimes, dreams lead to creative solutions or ideas about waking problems. For example, after trying for days to write a story about good and evil in the same person, author Robert Stevenson supposedly dreamed about a man who drank a magic drink that turned him into a monster. This dream may have inspired *The Strange Case of Dr. Jekyll and Mr. Hyde*.

- ① People become more organized by dreaming in sleep.
- ② Dreams can provide solutions to real problems.
- ③ Most dreams normally last longer than several minutes.
- ④ Dreams are the main theme of *The Strange Case of Dr. Jekyll and Mr. Hyde*.
- ⑤ Robert Stevenson invented a magic drink that would help people dream.
